

1 --49. A navigation display system for displaying a specified location on a
2 map, comprising:

3 400 a map storage device for storing map data;

4 530 a map display for displaying said map using said map data;

5 retrieval condition setting means for setting up retrieval condition
6 corresponding to icon on said map to be displayed on said map display;

7 a communication equipment for transmitting said retrieval condition to an

8 information offering equipment and for receiving information including position

9 information of said map and shape information of said icon retrieved according to

10 said retrieval condition in said information offering equipment; and

11 icon display means for displaying said icon based on said shape information
12 at a position on said map corresponding to said position information.

1 50. A navigation display system for displaying a specified location on a
2 map, comprising;

3 a map storage device for storing map data;

4 a map display for displaying said map using said map data;

5 retrieval condition setting means for setting up retrieval condition
6 corresponding to icon on said map to be displayed on said map display;

7 a communication equipment for transmitting said retrieval condition to an

8 information offering equipment and for receiving information including position

9 information of said map icon which is retrieved according to said retrieval condition

10 in said information offering equipment and is transmitted from said information
11 offering equipment;

12 an icon retrieving device for retrieving shape information of said icon
13 according to said retrieval condition from said map storage device, and for
14 demanding said communication equipment when said icon retrieving device may not
15 retrieve said shape information from said map storage device so as to make said
16 information offering equipment retrieve said information including said shape
17 information of said icon according to said retrieval condition; and

18 icon display means for displaying said icon based on said shape information
19 at a position on said map corresponding to said position information.

1 51. A navigation display system as defined in claim 49, wherein said
2 retrieval condition comprises a central position of retrieved area of said map.

1 52. A navigation display system as defined in claim 50, wherein said
2 retrieval condition comprises a central position of retrieved area of said map.--

REMARKS

Claims 49 through 52 are pending in this application. Claims 5-48 have been withdrawn from consideration by the Examiner under 37 C.F.R. §1.142(b) as being drawn to a non-elected invention. The Restriction Requirement (Paper No. 8) of Group I (claims 1-4) drawn to a navigation display receiving dynamic information
